# THE CHOICE OF WORLD CHAMPIONS

## COMPOUNDS

Medial Pro was the first RC tire manufacturer in the world having his own lab to develop the best rubber compounds. Even today we still count on our European rubber compound mixing companies to supply our racing rubber to manufacture our tires. We have 3 newly developed compounds M2, M3 and M4 to suit every track, surface and weather condition.

## LIGHTWEIGHT WHEELS

Made of genuine DUPONT composites resistant to the toughest impacts during racing. The injection technology used ensures perfect concentricity and balanced Wheels. These are true racing Wheels.

## CLOSED CELL INSERTS

The Medial Pro inserts are not injection molded but ground into shape ensuring perfect concentricity and balance. Water can be used to clean your tires and will not destroy the insert.

## RACING TIRES

# SPECIAL RACING COMPOUND FORMULATED & MIXED IN EUROPE

## TIRE TREAD

Each tire tread is designed in cooperation with our best Team drivers and the latest CAD software to ensure the best performance. Each new tire tread is being tested on different tracks all over the world before going into production.

## FACTORY TEAM TRANSMITTER BAG

With your transmitter being one of the single most important pieces of your racing equipment, it deserves all the protection it can get when traveling to and from races. To keep your transmitter safe and protected, use this stylish Team Transmitter Bag. Well padded to withstand the rigors of travel and with a spacious interior, the transmitter bag safely protects even the full-size computer radios available on the market today. Large dual zippers make access quick and easy. Strong lightweight water-repellent nylon gives durability, and tough heavy-duty stitching is used throughout the bag's construction. A wide handle strap makes carrying super easy and comfortable. The clear-plastic pocket allows you to display an ID card so you can quickly identify your transmitter bag.

Medial Pro is quickly becoming the pit boss with the release of a Team pit mat with brand authenticity. Making your pit area clean and professional looking has never been easier with the textured, soft, and durable design. Quickly roll or unroll to set-up or tear-down the pit area, the pit mat is versatile enough for the racer always on the go.

## FACTORY TEAM LIPO GUARD

Space-age fire-resistant  
fiber material

The Team **LIPO GUARD** bag is a high tech bag made of space-age materials that will help to contain a lithium polymer battery fire. Place your lithium polymer battery inside the LiPo Safe Charging Bag and extend the charging wires through the top flap. Charge your LiPo batteries in the LiPo Safe Charging Bag for peace of mind and a higher level of safety. In the event of a lithium polymer battery mishap, the **LIPO GUARD** bag fire-resistant material reduces the severity of the fire inside and vents the smoke outside the LiPo Safe Bag. The Charging Bag is sealed with a thick, industrial strength Velcro flap and can also be used for safe transportation and storage of your Lithium Polymer batteries.

## TIRE MOUNTING STRAP

Mounting tires can be tricky but with **MEDIAL PRO TIRE MOUNTING STRAP** these worries can now be minimized.

The **TIRE MOUNTING STRAP** is made of a strong silicone rubber, with oversize pulling lugs. Glue will not stick to the silicon, so the mounting strap will remain clean and last for a long time. Fits any size tire from 3.5" up to 4.7" (90mm to 120mm)
